

HEAR THE BEEP WHERE YOU SLEEP!

SMOKE ALARMS ARE IMPORTANT!

They help protect you and your family from fires.

It's Their Job To Detect Smoke Early Before Fires Get Too Big.
That Way, You Will Have The Chance To Escape.

**TEST
MONTHLY!**

BEEP!

BEEP!

Smoke alarms are **LOUD** so you can hear them even if you are asleep.

Know what your smoke alarm sounds like. Make sure it's loud enough to wake you up!

PUT A SMOKE ALARM:

- On every level of your home
- In the hall outside bedrooms
- In every bedroom

BEEP!

**WHEN YOU HEAR A SMOKE ALARM
- GET OUT AND STAY OUT!**

MAKE SURE YOUR SMOKE ALARMS PASS THE TEST!

If your smoke alarm isn't working, it can't save your life.

Test your smoke alarm every month.

Smoke alarms don't last forever. Replace smoke alarms every 10 years. Don't Wait - Check the Date!

Battery

CHANGE THE BATTERIES EVERY SIX MONTHS

Never take the batteries out. Those batteries are for your smoke alarms **ONLY**.

Keep fresh batteries on hand for your smoke alarms.

Change the batteries when you change the clocks. Write the replacement date on the calendar so you don't forget.

**TAKE CARE OF YOUR SMOKE ALARMS
AND THEY WILL TAKE CARE OF YOU!**
